Gabriele Capilli was born in Torino (Italy), on the 5th of February, 1990.

Studies

In 2013 he obtained his Bachelor's degree with honours (110/110, lode) in Chemistry at the University of Turin.

In 2015 he obtained his Master's degree with honours (110/110, lode e menzione) in Environmental Chemistry at the University of Turin, discussing a thesis on "*A photo-electrochemical study on C₃N₄*", under the supervision of Prof. C. Minero.

Since October 2015 he has started his PhD Program at the University of Turin. He is currently working in the "*Chemistry, Energy and Environment*" group, at the department of Analytical chemistry, under the supervision of Prof. C. Minero. He is focusing his research on "*(Photo)Electrochemical and analytical applications of inorganic and organic hybrid materials*".
